ELSEVIER

Early Human Development 46 (1996) 289–291

Early  
Human  
Development

## Subject index

Volume 46 (1996)

**Atrial natriuretic peptide;** Brain natriuretic peptide; Pulmonary arterial pressure **46, 55**

**Behavioral feeding intervention;** Intrauterine growth retarded infants (IUGR); Post-natal growth **46, 105**

**Behavioral response;** Newborn infants; Salivary cortisol; Salivary DHEA; Salivary DHEA-S; Maternal heartbeat **46, 117**

**Birth weight;** Smoking; Twins; Perinatal death **46, 43**

**Blood flow velocity (BFV);** Cerebral artery; Renal artery; Preterm **46, 165**

**Brain natriuretic peptide;** Atrial natriuretic peptide; Pulmonary arterial pressure **46, 55**

**Catecholamines;** Lactate; Spontaneous vaginal delivery **46, 97**

**Cerebral artery;** Blood flow velocity (BFV); Renal artery; Preterm **46, 165**

**Circadian clock;** Diurnal rhythms; Heart rate; Fetal breathing activity; Fetal baboon; Cosinor analysis **46, 27**

**Circulation;** Doppler; Fetal; Post-term; Pregnancy; Prolonged **46, 1**

**Cord plasma insulin;** 32-33 Split proinsulin; Placental growth; Fetal growth; Metabolic programming **46, 129**

**Cosinor analysis;** Diurnal rhythms; Circadian clock; Heart rate; Fetal breathing activity; Fetal baboon **46, 27**

**Diurnal rhythms;** Circadian clock; Heart rate; Fetal breathing activity; Fetal baboon; Cosinor analysis **46, 27**

**Doppler;** Circulation; Fetal; Post-term; Pregnancy; Prolonged **46, 1**

**$\beta$ -Endorphin;** Umbilical cord; Stress; Infant development **46, 83**

**Erythropoiesis;** Hematopoiesis; Granulocytopoiesis; Fetal spleen **46, 217**

**Essential fatty acids;** Fetal; Neonatal; Plasma phospholipids **46, 141**

**Essential fatty acids;** Multiple pregnancy; Umbilical artery and vein wall **46, 205**

**Fetal;** Circulation; Doppler; Post-term; Pregnancy; Prolonged **46, 1**

**Fetal;** Essential fatty acids; Neonatal; Plasma phospholipids **46, 141**

**Fetal baboon;** Diurnal rhythms; Circadian clock; Heart rate; Fetal breathing activity; Cosinor analysis **46, 27**

**Fetal breathing activity;** Diurnal rhythms; Circadian clock; Heart rate; Fetal baboon; Cosinor analysis **46, 27**

**Fetal growth;** Cord plasma insulin; 32-33 Split proinsulin; Placental growth; Metabolic programming **46, 129**

**Fetal growth;** IGFs; IGF binding proteins; Placental growth **46, 15**

- Fetal spleen;** Hematopoiesis; Granulocytopoiesis; Erythropoiesis **46, 217**
- Fetal swallowing;** Pharyngeal dilatation; Ultrasound **46, 77**
- Granulocytopoiesis;** Hematopoiesis; Erythropoiesis; Fetal spleen **46, 217**
- Heart rate;** Diurnal rhythms; Circadian clock; Fetal breathing activity; Fetal baboon; Cosinor analysis **46, 27**
- Hematopoiesis;** Granulocytopoiesis; Erythropoiesis; Fetal spleen **46, 217**
- High performance liquid chromatography (HPLC);** Neuroblastoma; Screening; Tumour markers; Vanillylmandelic acid (VMA); Homovanillic acid (HVA) **46, 177**
- Homovanillic acid (HVA);** Neuroblastoma; Screening; Tumour markers; High performance liquid chromatography (HPLC); Vanillylmandelic acid (VMA) **46, 177**
- IGF binding proteins;** IGFs; Fetal growth; Placental growth **46, 15**
- IGFs;** IGF binding proteins; Fetal growth; Placental growth **46, 15**
- Infant development;**  $\beta$ -Endorphin; Umbilical cord; Stress **46, 83**
- Intrauterine growth retarded infants (IUGR);** Post-natal growth; Behavioral feeding intervention **46, 105**
- In-utero hypothyroidism;** Neurobehavioral development; Thyroxine replacement therapy; Methimazole; Neonatal rats **46, 63**
- Lactate;** Catecholamines; Spontaneous vaginal delivery **46, 97**
- M-CSF;** Neonates; Perinatal complications **46, 229**
- Maternal heartbeat;** Newborn infants; Salivary cortisol; Salivary DHEA; Salivary DHEA-S; Behavioral response **46, 117**
- Metabolic programming;** Cord plasma insulin; 32-33 Split proinsulin; Placental growth; Fetal growth **46, 129**
- Methimazole;** Neurobehavioral development; Thyroxine replacement therapy; In-utero hypothyroidism; Neonatal rats **46, 63**
- Multiple pregnancy;** Essential fatty acids; Umbilical artery and vein wall **46, 205**
- Neonatal;** Essential fatty acids; Fetal; Plasma phospholipids **46, 141**
- Neonatal rats;** Neurobehavioral development; Thyroxine replacement therapy; In-utero hypothyroidism; Methimazole **46, 63**
- Neonates;** M-CSF; Perinatal complications **46, 229**
- Neurobehavioral development;** Thyroxine replacement therapy; In-utero hypothyroidism; Methimazole; Neonatal rats **46, 63**
- Neuroblastoma;** Screening; Tumour markers; High performance liquid chromatography (HPLC); Vanillylmandelic acid (VMA); Homovanillic acid (HVA) **46, 177**
- Newborn infants;** Salivary cortisol; Salivary DHEA; Salivary DHEA-S; Behavioral response; Maternal heartbeat **46, 117**
- Perinatal complications;** M-CSF; Neonates **46, 229**
- Perinatal death;** Smoking; Twins; Birth weight **46, 43**
- Pharyngeal dilatation;** Fetal swallowing; Ultrasound **46, 77**
- Placental growth;** Cord plasma insulin; 32-33 Split proinsulin; Fetal growth; Metabolic programming **46, 129**
- Placental growth;** IGFs; IGF binding proteins; Fetal growth **46, 15**
- Plasma phospholipids;** Essential fatty acids; Fetal; Neonatal **46, 141**
- Post-natal growth;** Intrauterine growth retarded infants (IUGR); Behavioral feeding intervention **46, 105**
- Post-term;** Circulation; Doppler; Fetal; Pregnancy; Prolonged **46, 1**

**Pregnancy;** Circulation; Doppler; Fetal; Post-term; Prolonged 46, 1

**Preterm;** Blood flow velocity (BFV); Cerebral artery; Renal artery 46, 165

**Prolonged;** Circulation; Doppler; Fetal; Post-term; Pregnancy 46, 1

**Pulmonary arterial pressure;** Atrial natriuretic peptide; Brain natriuretic peptide 46, 55

**Renal artery;** Blood flow velocity (BFV); Cerebral artery; Preterm 46, 165

**Salivary cortisol;** Newborn infants; Salivary DHEA; Salivary DHEA-S; Behavioral response; Maternal heartbeat 46, 117

**Salivary DHEA;** Newborn infants; Salivary cortisol; Salivary DHEA-S; Behavioral response; Maternal heartbeat 46, 117

**Salivary DHEA-S;** Newborn infants; Salivary cortisol; Salivary DHEA; Behavioral response; Maternal heartbeat 46, 117

**Screening;** Neuroblastoma; Tumour markers; High performance liquid chromatography (HPLC); Vanillylmandelic acid (VMA); Homovanillic acid (HVA) 46, 177

**Smoking;** Twins; Birth weight; Perinatal death 46, 43

**32-33 Split proinsulin;** Cord plasma insulin; Placental growth; Fetal growth; Metabolic programming 46, 129

**Spontaneous vaginal delivery;** Lactate; Catecholamines 46, 97

**Stress;**  $\beta$ -Endorphin; Umbilical cord; Infant development 46, 83

**Thyroxine replacement therapy;** Neuro-behavioral development; In-utero hypothyroidism; Methimazole; Neonatal rats 46, 63

**Tumour markers;** Neuroblastoma; Screening; High performance liquid chromatography (HPLC); Vanillylmandelic acid (VMA); Homovanillic acid (HVA) 46, 177

**Twins;** Smoking; Birth weight; Perinatal death 46, 43

**Ultrasound;** Fetal swallowing; Pharyngeal dilatation 46, 77

**Umbilical artery and vein wall;** Essential fatty acids; Multiple pregnancy 46, 205

**Umbilical cord;**  $\beta$ -Endorphin; Stress; Infant development 46, 83

**Vanillylmandelic acid (VMA);** Neuroblastoma; Screening; Tumour markers; High performance liquid chromatography (HPLC); Homovanillic acid (HVA) 46, 177
